To Whom so Ever it May Concern

Subject: - Certificate of Appreciation

This is to certify that we are using quanta Software – Birlamedisoft from 4 years .we are extremely happy and satisfied with the software and the support services provided from the company.

We have recently upgraded the Birlamedisoft software with Accounting Module inbuilt, Earlier we were using third party account software and practicing only the account function, we have to maintain double entries, which was timing consuming and difficult.

Hence, we have ordered the Birlamedisoft quanta V.3 with accounting module

We wish Birlamedisoft success and good luck in future

Thanking you,
