

# Limited Period Golden Offer **PathoGoldCloud LIS**

(Online Laboratory Management Information System)

**SWIFT PLAN OFFER**  
**(With Hematology Interface)**

**Super Deal**

**With Swift Plan, you will get One Hematology Instrument Interfacing done**

**All data from Instrument will be directly captured in the software**

**You can also EDIT the captured Values easily**

**GRAPHS from the Machine can be attached as a PICTURE with a report**

**You will get 3000 patients processing per month**

**This is a true VALUE FOR MONEY Deal for you**

## How it works

**Register a Patient -> Collect Sample -> Type last 5 digits of patient ID on machine -> Run a sample -> Results will directly appear in the test format -> You can edit those results if required -> Print a Report**

IF A MACHINE CAN READ A BARCODE, YOU CAN CREATE BARCODED VIALS, THEN NO NEED TO TYPE ANY PATIENT ID ON THE INSTRUMENT, JUST SCAN THE BARCODE
